

Hytera PNC370 Push-to-Talk Over Cellular (PoC) Radios with the Hytera ⊢ △ ∟ □ Nationwide Group Communications Solution

- Nationwide Coverage with 3G/4G/Wi-Fi Networks
- Powerful Fleet Dispatching and Location Tracking
- Compact and Rugged Radios that are Easy to Use

- 1 Push-To-Talk Button
- 2 Volume Up/Down
- 3 Built-in GPS
- 4 2.0" TFT Screen

- **6** Superior Audio
- 7 Audio Jack
- **8 USB 2.0 Port 9 Built-in Bluetooth**
- 10 LED Flashlight

PNC370 KEY FEATURES

The PNC370 is a compact, durable, and easy-to-operate handheld radio that enables connectivity over 3G/4G/LTE and Wi-Fi for wide-area radio communications. The PNC370 radios with Hytera HALO can be deployed very quickly to deliver these features at a lower cost than traditional radio systems:

(()) Nationwide Coverage

Extend workforce communication nationally with mobile 3G/4G/LTE coverage that is supported by the Micro-SIM.

(*)) Versatile voice calls with excellent audio quality Noise suppression guarantees audio quality for individual, group and emergency calls.

Real-time Availability

Check the status of contacts in real-time (online or offline), providing clear information about team availability.

GPS Positioning & Real Time Clock

Built-in GPS supports tracking and positioning for dispatching, as well as the RTC for displaying call history.

((•)) Built-in Bluetooth

Built-in Bluetooth supports wireless connection with audio accessories for improved efficiency and hands free operation.

Built-in Wi-Fi

Enables connectivity to Wi-Fi networks, and automatically switches over to the LTE network when out of Wi-Fi range.

LED Flashlight

With one-touch operation, the LED flashlight provides convenient illumination.

Pre-installed Apps

Pre-installed Android apps provide convenient PoC services.

Supplementary Features

The PNC370 can be remotely stunned or reactivated by the dispatcher. Other features include call recording, detailed call logs and emergency calling.

Long Battery Life

The impressive battery capacity delivers up to 18 hours of working time, supported with Micro-USB charging to make it easy to charge anytime, anywhere.

Reliable and Durable

The PNC370 is compliant with MIL-STD-810 G and IP54, delivering a long-lasting solution even in challenging environments.

The Hytera HALO Nationwide Group Communications Solution and PNC370 PoC radios enable push-to-talk communications over cellular LTE (3G/4G/Wi-Fi) networks, creating a wide-area radio network that utilizes the infrastructure of Mobile Network Operators.

HALO features a powerful dispatch application that when combined with the PNC370 radio's built-in GPS allows tracking of driver locations and travel routes with time stamps. The dispatch application supports instant group calling as well as individual calling for the most flexible calling available. Dynamic groups can be quickly created with a simple list selection or geographically by selecting an area on the dispatch map. The dispatcher may stun (turn off) and reactivate a radio, perform Lone Worker monitoring, receive emergency alarms, along with full call recording, logging and playback. The HALO system also supports cell phone devices with the HALO android app installed, providing flexibility for users who may also need cellular access.

TARGET APPLICATIONS

Transportation and Logistics

- Trucking Companies
- Rental Car Agencies
- · Bus and Shuttle Services
- · Delivery Services
- Warehousing and Supply Chain

Large Enterprises

- Utilities
- Cable and Telecommunications
- Food Services
- Waste Collection
- Technology Services

Small and Medium Companies

- Security Companies
- Plumbers and Electricians
- Exterminators
- Cleaning and Maintenance Companies
- · Auto parts and Tools

SPECIFICATIONS

Standards & Frequencies		
LTE	FDD:B2/B4/B5/B7/B12/B17/B26/B28 TDD:B38/B41	
WCDMA	B2/B4/B5	
GSM	850/900/1800/1900	
WLAN	2.4GHz, 802.11 b/g/n	
Bluetooth	BT 4.1	
Positioning System	GPS/BDS/GLONASS	

General Specifications		
Dimensions (H x W x D)	121 x 55.5 x 24mm	
Weight (with battery)	185g (with battery)	
Memory	RAM: 512M	
	ROM: 4GB	
SIM Card	Micro SIM (12x15mm)	
Display	2.0'' 320×240	
	TFT/Non-touch	
Port	Micro USB 2.0	
	2.5mm Audio Jack	
	Dock Charger interface	
Operating Voltage	3.6V (Rated)	
Battery	3100mAh (Li-ion)	
Battery Life	≥18h (5-5-90 working cycle)	

Transceiver	
Audio Power Output	1W (Rated) (Max: 2W)
Mic	Dual mic noise suppression

Environmental		
Dust and Water Proof	IP54 Standard	
Shock & Vibration	MIL-STD-810 G Standard	
Drop Resistance	1.2m	
ESD	IEC 61000-4-2 ±8 kV (Contact) ±12 kV (Air)	
Operation Temperature	-20°C ~ +60°C	
Storage Temperature	-30°C ~ +70°C	

STANDARD (INCLUDED) ACCESSORIES

Power Adaptor

RO01— Hand Strap

BC08— Belt Clip

OPTIONAL ACCESSORIES

EHS16— C Style Earpiece

MCL23 — Multi-unit Charger
